Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

(Previously Amended) A method of sending an electronic message from 1 1. 2 within a game application to an intended recipient over a network, comprising: receiving a user input selecting an image generated by the game application; 3 generating a message form from within the game application for receiving 4 message information; 5 combining the selected image and the message information into a composite 6 7 message; and sending the composite message from within the game application to the intended 8 9 recipient over the network. (Original) The method of claim 1 wherein message information further 1 2. 2 comprises address information for the recipient. 1 3. (Original) The method of claim 1 wherein message information further 2 comprises message text to be transmitted to the recipient. 1 4. (Original) The method of claim 1 further comprising: 2 receiving an address specifying a recipient of the message; and attaching the address to the composite message; and wherein sending 3 comprises sending the composite message to the specified address. 4 5. (Original) The method of claim 1 further comprising: 1 2 receiving a generate message command; and 3 responsive to receiving the generate message command, pausing execution

4	of the application.			
1	6. (Original) The method of claim 5 further comprising:			
2	responsive to a message containing the image being transmitted, resuming			
3	execution of the application.			
1	7. (Original) The method of claim 1 further comprising:			
2	sending a message containing recipient and sender data to a predetermined			
3	recipient to allow the predetermined recipient to identify potential			
4	users of the application.			
1	8. (Previously Amended) The method of claim 7 further comprising:			
2	receiving the message;			
3	identifying an intended recipient of the message;			
4	determining whether the intended recipient is an owner of the game application			
5	and			
6	responsive to the intended recipient not being an owner of the game application			
7	sending advertising material regarding the game application to the			
8	intended recipient.			
1	9. (Previously Amended) A method of capturing a gaming experience of a			
2	currently executing game application for transmission as a message to a remote recipient:			
3	capturing a user selected multimedia information generated as part of the			
4	gaming experience;			
5	receiving text to accompany the multimedia information;			
6	creating a composite message using the captured multimedia information			
7	and the received text; and			
8	sending the composite message from within the game application to a recipient			
9	at a remote location.			
1	10. (Original) The method of claim 9 wherein capturing user selected			
2	multimedia information comprises			

3		captur	ing all image currently being displayed by the application.		
1		11.	(Original) The method of claim 9 wherein capturing the user selected		
2	multimedia information comprises:				
3		retrieving an audio file linked to the application.			
1		12.	(Previously Amended) The method of claim 10 wherein capturing an		
2	image further	compri	ses:		
3		remov	ing extraneous information from the currently displayed image.		
1		13.	(Previously Amended) The method of claim 10 wherein capturing an		
2	image further comprises:				
3		scaling	g the currently displayed image to a smaller size.		
1		14.	(Original) The method of claim 9 wherein sending the composite message		
2	comprises:				
3		compressing the multimedia information.			
1		15.	(Original) The method of claim 14 wherein sending further comprises:		
2		conve	rting the composite message into a format compatible with an		
3			electronic messaging protocol.		
1		16.	(Original) The method of claim 9 further comprising:		
2		pausin	g execution of the application responsive to receiving a selection of		
3			multimedia information.		

1	17. (Original) The method of claim 16 further comprising:			
2	resuming execution of the application responsive to sending the composite			
3	message.			
1	18. (Original) The method of claim 9 further comprising:			
2	displaying a notification to the sender that the sent message has been			
3	received.			
1	19. (Previously Amended) A computer readable medium for sending an			
2 _	electronic message from within a game application to an intended recipient over a network, the			
3	computer readable medium storing instructions for causing a processor to:			
4	receive a user input selecting an image displayed by the game application;			
5	generate a message form from within the game application for receiving			
6	message information;			
7	combine the selected image and the message information into a composite			
8	message; and			
9	send the composite message from within the game application to the intended			
10	recipient over the network.			
1	20. (Original) The computer readable medium of claim 19 storing instructions			
2	that further cause the processor to:			
3	pause execution of the application responsive to receiving a generate			
4	message command; and			
5	responsive to a message containing the image being transmitted, resume			
6	execution of the application.			
1	21. (Previously Amended) The computer readable medium of claim 18			
2	wherein the instructions to receive user input selecting an image further cause the processor to:			
3	remove extraneous information from the displayed image.
